I ordered some bridesmaid dresses online when I received the size was so out! What was meant to be a medium looked like an XS and didn't even fit around me (its size guides didn't even fit this product) so it certainly needs review. When talking to your team online customer, while returns are free, exchanges are not. I would have to re-order and pay postage a second time, the 'assistant' is completely useless and does not advise me as to which size would be most appropriate. Shocking customer service, since then I have asked an alternative company whose sizes are perfect, the quality is much more attractive, arrived beautifully wrapped And paid less for the items with free It won't be long before these fast fashion companies don't trade anymore, just take 1 look at these reviews to prove it. If you want wedding dresses.. don't bother with Boohoo, the quality is so poor! Poor!
